

The shipyard has already acquired quality certificate - the PQR (Procedure Qualification Record) approval from Bureau Veritas (France) to follow the ASME (American Society of Mechanical Engineers) code and AWS (American Welding Society) code, which will ensure a quality work of highest Shipbuilding Standard. It has also certified welders from ABS (American Bureau of Shipping, USA), GL (Germanischer Lloyd, Germany), LR (Lloyds Register of Shipping, UK) and RINA (Registro Italiano Navale, Italy).
