

DESH Shipbuilding & Engineering Limited (DSEL®)

represents the ideal icon for the shipbuilding and repairing business with the aim to reach unobtainable heights and promote the Shipbuilding Industry in Bangladesh and all over the world.

DESH Shipbuilding & Engineering Ltd. is strategically located at Chittagong, Bangladesh with 26,000 sft of temperature controlled production facility with 150 employees. The company is dedicated to the design and fabrication of specialized aluminum vessels –commercial, yachts and security vessels both mono and multihull.

DSEL works primarily in marine grade aluminum alloy, a material with inherent and undisputed qualities in mass saving, strength, versatility and ease of maintenance. Our success at building high quality vessels in Bangladesh stems from implementing and meeting EU and UK standards of quality control using ISO 9001:2008 management model. With our qualified and dedicated technical staff and shipyard trained production teams continually striving to improve we can offer quality vessels at a cost competitive with any in the world.

We work with our Clients assisting with design development, selecting and procuring specified equipment from renowned and recognized maritime manufacturers using our purchasing strength to manage cost saving advantages for our Clients.

Our best advertising is our Customers; they come back for their next vessel.

An experienced management and skilled work force combine to produce a turn-key operation to international classification society and IMO/SOLAS standards including the 2000 HSC Code.

Developed and built to designs from renowned Naval Architects and Designers based on your technical specifications for your working requirements. Our vessels are engineered to take you out there and bring you home.

All of DESH Shipbuilding & Engineering Ltd. projects are built using top quality imported certified marine grade aluminum, steel selected from the world's best brands.

Whether you are looking for a special purpose vessel or pleasure yacht exclusively made in Aluminum call DESH Shipbuilding & Engineering Ltd., we guarantee you will be pleased with the result and your new boat.
