

### **Design house:**

Located in head office and enriched with updated software and experienced Naval Architects. Capable to design all types of Aluminum boat to cater your demand according to your specification and complying with local or IACS class rules.

### **Production facility**

Two weather proof covered steel shed for shipbuilding and fabrication with the following dimension:

Production shed 01: 24.4 m x 19.8 m x 13.7 m

Production shed 02: 26.0 m x 13.7 m x 12.0 m

### **Equipments**

- Air Compressor
- Arc Welding Machine, 450 Amp
- Plasma Cutting Machine
- Diesel Generator, 120, 215, 800 KW
- Lathe machine, 10, 12, 20 Feet
- Lifting Crane, 10 tons
- Lifting Crane (Derrick, 5 tons)
- MIG Welding Machine, Kemppi
- TIG Welding Machine, Kemppi
- Paint Spray Machine
- Pipe Bending Machine, Upto 150 mm
- Plate Bending Hydraulic Press
- Sand Blasting Machine
- Shaper Machine
- Shearing Machine, Upto 13 mm
- Surface Grinder, Milling, Vertical Turret Lathe
- Overhead Crane – 15 tons
